<b>Providing legal identity for all, including birth registration (target 16.9) .....</b>	<b>395</b>
Current situation and progress so far .....	395
Impact of the COVID-19 pandemic .....	397
Summary of findings and the way forward .....	397
<b>Ensuring public access to information (target 16.10) .....</b>	<b>399</b>
Current situation and progress so far .....	399
Summary of findings and the way forward .....	404
<b>Mobilizing official development assistance (target 17.2) .....</b>	<b>406</b>
Current situation and progress so far .....	406
Summary of findings and the way forward .....	411
<b>Enhancing the use of enabling technology (target 17.8) .....</b>	<b>413</b>
Current situation and progress so far .....	413
Impact of the COVID-19 pandemic .....	418
Summary of findings and the way forward .....	419

<b>International trade (targets 17.10 to 17.12) .....</b>	<b>422</b>
Current situation and progress so far .....	422
Summary of findings and the way forward .....	431
<b>Increasing the availability of data (target 17.18) .....</b>	<b>435</b>
Current situation and progress so far .....	435
Impact of the COVID-19 pandemic .....	440
Summary of findings and the way forward .....	442
<b>Conclusion: SDG progress by, for and with persons with disabilities at a glance .....</b>	<b>445</b>
<b>Annex 1. SDG progress by, for and with persons with disabilities by goal .....</b>	<b>448</b>
<b>Explanatory notes .....</b>	<b>454</b>
<b>Endnotes .....</b>	<b>455</b>

## List of figures

Figure 1. Percentage of persons living under the national poverty line, by disability status, in 11 countries, in 2021 or latest year available. ....	59
Figure 2. Progress in the percentage of persons with disabilities living under the national poverty line, in 2 countries, from 2015 to 2021. ....	60
Figure 3. Multidimensional poverty rates, by disability status, in 33 countries or areas, in 2018 or latest year available. ....	61
Figure 4. Income/wage gaps between persons without and with disabilities, in percentage, in 9 countries, in 2021 or latest year available. ....	62
Figure 5. Progress in income/wage gaps between persons with and without disabilities, in percentage, in 2 countries, from 2015 to 2021. ....	63
Figure 6. Extra disability-related costs as a proportion of household income, in 40 countries, in 2018 or latest year available. ....	64
Figure 7. Percentage increase in income poverty among persons with disabilities, when extra costs related to disability are considered, in 19 countries, in 2018 or latest year available. ....	65
Figure 8. Percentage of persons with disabilities who consider banks, post offices and shops in their community hindering or not accessible, in 15 countries or areas, in 2021 or latest year available. ....	66
Figure 9. Percentage of banks that are accessible for wheelchair users, in developed and developing regions, from 2018 to 2022. ....	67
Figure 10. Percentage of ATMs that are accessible for wheelchair users, in developed and developing regions, from 2018 to 2022. ....	68
Figure 11. Percentage of persons who use a mobile phone for financial transactions, by disability status, in 9 countries, in 2021 or latest year available. ....	69
Figure 12. Percentage of countries with cash disability benefits programmes anchored in national legislation, by type of programme and benefit, in 2017 and 2020. ....	70
Figure 13. Percentage of persons with severe disabilities receiving cash benefits, worldwide and by region, 2020 or latest year available. ....	71
Figure 14. Value of disability benefits as a percentage of the relevant international poverty line, in 20 countries, in 2022 or latest year available. ....	72

Figure 15. Percentage of children aged 2 to 17 years living in a household that received any type of social transfers and benefits in the last three months, by disability status, in 29 countries, in 2021 or latest year available. ....	73
Figure 16. Percentage of countries or areas that had social protection measures in place for persons with disabilities during the COVID-19 pandemic, by type of measure, in Asia and the Pacific, as of 2022. ....	75
Figure 17. Percentage of persons who did not always have food to eat, by disability status, in 14 countries or areas, in 2021 or latest year available. ....	81
Figure 18. Percentage of persons who cannot afford a meal with meat, chicken, fish (or vegetarian equivalent) every second day, for persons aged 16 and over, by disability status, in 34 countries, in 2021. ....	82
Figure 19. Percentage of persons with disabilities who did not always have food to eat, by area of residence, in 6 countries, in 2018 or latest year available. ....	83
Figure 20. Percentage of persons with disabilities who are unable to afford a meal with meat, chicken, fish (or vegetarian equivalent) every second day, in 33 countries, in 2015 and 2021. ....	84
Figure 21. Percentage of households not having consumed protein, vitamin A and iron in the past 7 days, for households with and without persons with disabilities, in selected areas in Fiji, Kiribati, Samoa, Tonga and Vanuatu, in February or March 2021 (WG). ....	85
Figure 22. Percentage of food banks that are accessible for wheelchair users, worldwide, from 2018 to 2022. ....	85
Figure 23. Percentage of supermarkets that are accessible for wheelchair users, in developed and developing regions, from 2018 to 2022. ....	86
Figure 24. Percentage of restaurants that are accessible for wheelchair users, in developed and developing regions, from 2018 to 2022. ....	86
Figure 25. Percentage of children aged 24 to 59 months who are moderately or severely underweight, by disability status, in 33 countries or areas, in 2015-2021. ....	88
Figure 26. Percentage of children aged 24 to 59 months who are too short for their age (moderate or severe stunting), by disability status, in 34 countries or areas, in 2021 or latest year available. ....	89
Figure 27. Percentage of households that ran out of food in the past 30 days due to lack of money, before and after the COVID-19 pandemic (2021), in Brazil. ....	91
Figure 28. Percentage point increase in the percentage of persons who are unable to afford a meal with meat, chicken, fish (or vegetarian equivalent) every second day, in the European Union and in 3 countries, from 2019 to 2020. ....	91

Figure 29. Percentage of persons with self-perceived health as bad or very bad, by disability status, in 47 countries or areas, in 2021 or latest year available. ....	97
Figure 30. Percentage of persons with disabilities with self-perceived health as bad or very bad, in 33 countries, in 2015 and 2021.....	98
Figure 31. Percentage of persons who needed but could not get healthcare, by disability status, in 38 countries or areas, in 2021 or latest year available. ....	100
Figure 32. Percentage of persons who needed but could not get a medical examination because the examination was too expensive, too far to travel to or the person was still on a waiting list, by disability status, in 33 countries, in 2015 and 2021. ....	101
Figure 33. Percentage of persons with disabilities who did not get healthcare when needed because they could not afford its cost, in 5 countries, in 2021 or latest year available. ....	102
Figure 34. Percentage of persons with disabilities who did not get healthcare when needed because transport was not available or not affordable, in 5 countries or areas, in 2021 or latest year available. ...	103
Figure 35. Percentage of persons who were badly treated during inpatient or outpatient healthcare, by disability status, in Afghanistan, in 2019. ....	103
Figure 36. Percentage of persons with disabilities who reported that healthcare facilities were hindering or not accessible, in 12 countries or areas, in 2021 or latest year available. ....	104
Figure 37. Percentage of doctors' premises, hospitals, medical supply shops, mental health facilities, opticians and pharmacies that are accessible for wheelchair users, worldwide, in 2018 and 2022.....	106
Figure 38. Percentage of smokers of cigarettes, by disability status, in 11 countries, in 2021 or latest year available. ....	107
Figure 39. Percentage of countries or areas that prioritized persons with disabilities in the COVID-19 vaccine roll-out and provided information on COVID-19 in formats accessible to persons with disabilities, in Asia and the Pacific, as of 2022.....	110
Figure 40. Percentage of countries that prioritized persons with disabilities and their personal assistants in national COVID-19 vaccination plans, in Latin America and the Caribbean, as of 1 May 2021.....	112
Figure 41. Percentage of women aged 15 to 49 with comprehensive knowledge about HIV/AIDS, by disability status, in 9 countries, in 2021 or latest year available. ....	119
Figure 42. Percentage of men aged 15 to 49 with comprehensive knowledge about HIV/AIDS, by disability status, in 8 countries, in 2021 or latest year available. ....	120

Figure 43. Percentage of women aged 15 to 49 exercising autonomy in reproductive health decision-making and empowered to exercise their reproductive rights (also known as 'bodily autonomy'), by disability status, in 14 countries, in 2021 or latest year available.....	122
Figure 44. Percentage of women aged 15 to 49 years who have their needs for family planning satisfied with modern methods, in 14 countries, in 2021 or latest year available. ....	123
Figure 45. Percentage of births attended by skilled health personnel, by disability status of the mother, in 15 countries or areas, in 2021 or latest year available. ....	125
Figure 46. Percentage of live births attended by skilled health personnel, by area of residence of the mother with disabilities, in 10 countries, in 2021 or latest year available.....	126
Figure 47. Percentage of women aged 15 to 49 who received a timely postnatal check, by disability status, in 9 countries, in 2021 or latest year available.....	127
Figure 48. Percentage of children aged 10 to 17 years who never attended school, by disability status, in 35 countries or areas, in 2020 or latest year available. ....	136
Figure 49. Percentage of children of primary school age who are out of school, by disability status, in 44 countries or areas, in 2020 or latest year available. ....	137
Figure 50. Percentage of children of primary school age who are out of school, by disability and Indigenous status, in 4 countries, in 2020 or latest year available. ....	138
Figure 51. Percentage of children of primary school age who are out of school, by disability status and sex, in 27 countries or areas, in 2020 or latest year available. ....	139
Figure 52. Percentage of adolescents of lower secondary school age who are out of school, by disability status, in 38 countries or areas, in 2020 or latest year available.....	140
Figure 53. Percentage of children of lower secondary school age who are out of school, by disability and Indigenous status, in 5 countries, in 2020 or latest year available. ....	141
Figure 54. Percentage of children of lower secondary school age who are out of school, by disability status and sex, in 22 countries or areas, in 2020 or latest year available.....	142
Figure 55. Percentage of adolescents of upper secondary school age who are out of school, by disability status, in 35 countries or areas, in 2020 or latest year available.....	143
Figure 56. Percentage of adolescents of upper secondary school age who are out of school, by disability status and sex, in 15 countries or areas, in 2020 or latest year available. ....	144
Figure 57. Percentage of persons with disabilities who never attended school because of economic reasons, in 6 countries or areas, in 2021 or latest year available. ....	144

Figure 58. Percentage of persons with disabilities who never attended school because of disability or because parents did not want them to attend school, in 7 countries or areas, in 2021 or latest year available. ....	145
Figure 59. Primary completion rate, by disability status, in 24 countries or areas, in 2020 or latest year available. ....	145
Figure 60. Primary completion rate, by disability status and sex, in 18 countries or areas, in 2020 or latest year available. ....	146
Figure 61. Percentage of persons 25 years and older who completed tertiary education, by disability status, in 30 countries or areas, in 2021 or latest year available. ....	147
Figure 62. Percentage of children aged 7 to 14 years with foundational reading skills, by disability status, in 24 countries or areas, in 2020 or latest year available. ....	148
Figure 63. Percentage of children 7 to 14 years old with foundational numeracy skills, by disability status, in 24 countries or areas, in 2020 or latest year available. ....	149
Figure 64. Percentage of children aged 7 to 14 with foundational reading skills, by disability status and sex, in 24 countries or areas in 2020 or latest year available. ....	150
Figure 65. Percentage of children aged 7 to 14 with foundational numeracy skills by disability status and sex, in 24 countries or areas in 2020 or latest year available. ....	151
Figure 66. Percentage of students with disabilities who found that schools were not accessible or hindering, in 7 countries, in 2019 or latest year available. ....	152
Figure 67. Percentage of countries that implemented measures for the promotion of equitable education systems, in 75 to 135 countries, from 2016 to 2021. ....	153
Figure 68. Percentage of countries that guarantee education for persons with disabilities in their laws regulating education, for the world and by region, in 2018. ....	154
Figure 69. Percentage of countries by type of school organization for students with disabilities, as defined in their laws, for the world and by region, in 2020. ....	155
Figure 70. Percentage of students who dropped out during the COVID-19 pandemic, and who had an unmet need for learning support and for home schooling/learning materials, by disability status, in developing countries, in 2020. ....	156
Figure 71. Percentage of children with disabilities with access to the Internet and other information and communication technology during school closures due to the COVID-19 pandemic, in 2020. ....	157
Figure 72. Percentage of parents/caregivers of children with disabilities that had access to financial support during school closures due to the COVID-19 pandemic, in 2020. ....	157

Figure 73. Percentage of women with disabilities who felt discriminated against due to their disability, in 25 countries or areas, in 2020 or latest year available. ....	165
Figure 74. Percentage of women who felt discriminated against due to their gender, by disability status, in 25 countries or areas, in 2020 or latest year available. ....	166
Figure 75. Percentage of women aged 15 to 49 who have experienced sexual violence, at least once in the past 12 months, by disability status, in 12 countries, in 2021 or latest year available. ....	167
Figure 76. Percentage of girls aged 15 to 18 who are or have been previously married, by disability status, in 28 countries, in 2021 or latest year available. ....	170
Figure 77. Percentage of employed women aged 15 and over in unpaid work, by disability status, in 23 countries or areas, in 2021 or latest year available. ....	171
Figure 78. Percentage of employed women aged 15 and over who work as legislators, senior officials, and managers, by disability status, in 25 countries or areas, in 2021 or latest year available. ....	173
Figure 79. Percentage of seats held by women with disabilities in the national parliament or similar legislative body, in 5 countries or areas in Asia, in 2017 and 2022. ....	174
Figure 80. Percentage of members of national coordination mechanisms on disability, by disability status and sex, in 14 countries or areas, in 2022. ....	174
Figure 81. Percentage of persons living under the national poverty line, by disability status and sex, in 12 countries or areas, in 2021 or latest year available. ....	175
Figure 82. Wage gaps between women and men with disabilities, in percentage, in 6 countries, in 2021 or latest year available. ....	177
Figure 83. Progress in wage gaps between women and men with disabilities, in percentage, in 2 countries, from 2015 to 2021. ....	177
Figure 84. Percentage of persons with disabilities who use a mobile phone for financial transactions, by sex, in 9 countries, in 2021 or latest year available. ....	178
Figure 85. Percentage of persons with disabilities who use the Internet, by sex, in 39 countries, in 2021 or latest year available. ....	179
Figure 86. Percentage of persons with disabilities who own a mobile phone, by sex, in 37 countries, in 2021 or latest year available. ....	180
Figure 87. Percentage of persons with disabilities who need but do not have assistive products (e.g., sign language interpreter, wheelchair, hearing/visual aids, braille), by sex, in 10 countries or areas, in 2021 or latest year available. ....	181

Figure 88. Percentage of countries that have legal protections specifically for women with disabilities in their gender equality or disability laws, in 190 countries, in 2015 and 2022.....	182
Figure 89. Percentage of countries that have legislation or policies specifically addressing women with disabilities, by type of legislation/policy, in 190 countries, in 2022. ....	183
Figure 90. Percentage of women impacted by the COVID-19 pandemic, by area impacted and disability status, in 26 countries, between March 2020 and March 2021. ....	185
Figure 91. Percentage of persons who were employed before the start of the COVID-19 pandemic and unemployed in March 2021, by disability status and sex, in the European Union.....	186
Figure 92. Percentage of persons who live in a household with an improved/safe source of drinking water on premises, by disability status, in 40 countries, in 2021 or latest year available.....	192
Figure 93. Percentage of persons with disabilities with access to an improved/safe source of drinking water on or off the premises, by area of residence, in 26 countries, in 2021 or latest year available.....	193
Figure 94. Percentage of persons who live in a household with improved sanitation on premises, by disability status, in 32 developing countries, in 2021 or latest year available.....	195
Figure 95. Percentage of persons with disabilities with access to improved sanitation on or off the premises, by area of residence, in 25 countries, in 2021 or latest year available.....	196
Figure 96. Percentage of persons aged 16 and over with a toilet in their dwelling, by disability status, in 34 European countries, in 2020. ....	197
Figure 97. Percentage of persons with a toilet in their dwelling, by disability status, in 33 countries, 2015 and 2020. ....	198
Figure 98. Percentage of persons aged 16 and over without a bath or shower in their dwelling, by disability status, in 34 countries, in 2020. ....	199
Figure 99. Percentage of persons with disabilities aged 16 and over with no bath or shower in their dwelling, in 33 countries, 2015 and 2020.....	200
Figure 100. Percentage of children/youth aged 2 to 17 years living in a dwelling with improved sanitation facilities, by disability status, in 41 countries or areas, in 2017-2021. ....	202
Figure 101. Percentage of persons with disabilities who reported their toilet at home is hindering or not accessible, in 10 countries or areas, in 2015-2021. ....	203
Figure 102. Percentage of women and girls aged 15 to 49 who did not participate in school, work or social activities during their last menstrual period, by disability status, in 30 countries or areas, in 2020 or latest year available. ....	204

Figure 103. Percentage of schools with accessible and non-accessible drinking water sources, in 8 countries, in 2021 or latest year available.....	205
Figure 104. Percentage of schools with accessible and non-accessible sanitation, in 22 countries or areas, in 2021 or latest year available. ....	206
Figure 105. Percentage of schools with accessible and non-accessible handwashing facilities, in 8 countries or areas, in 2021 or latest year available. ....	207
Figure 106. Percentage of schools with accessible water, sanitation and hygiene, in urban and rural areas, in 4 countries, in 2020-2021.....	208
Figure 107. Percentage of handwashing facilities in schools with accessibility features, by type of feature, in rural areas, in Tajikistan in 2020. ....	208
Figure 108. Percentage of pre-primary, primary and secondary schools with at least one accessible toilet, in Costa Rica, from 2014 to 2020. ....	209
Figure 109. Percentage of healthcare facilities with accessible and non-accessible improved sanitation for those with limited mobility, in 31 countries or areas, in 2021.....	210
Figure 110. Percentage of places to get drinking water, and that have public toilets and public showers that are accessible for wheelchair users, in developing and developed countries, in 2018 and 2022. ....	211
Figure 111. Percentage of parents/caregivers who needed but did not have access to water delivery during the COVID-19 pandemic, by disability status, in 2020.....	212
Figure 112. Percentage of parents/caregivers who needed but did not have access to sanitary products during the COVID-19 pandemic, by disability status, in 2020.....	213
Figure 113. Percentage of households, with and without persons with disabilities, with access to electricity, in 57 countries, in 2021 or latest year available.....	217
Figure 114. Percentage of households that are energy poor, by disability status, in 24 countries, in 2016. ....	218
Figure 115. Progress made by countries in access to electricity, in percentage points, by disability status, in 5 countries, in 2000-2019.....	219
Figure 116. Percentage of households with persons with disabilities with access to electricity, by area of residence, in 30 countries, in 2021 or latest year available. ....	220
Figure 117. Percentage of households lacking heating or cooling facilities, by disability status, in 24 countries, in 2016.....	221
Figure 118. Percentage of households cooking with wood or coal, by disability status, in 20 countries, in 2017 or latest year available. ....	223

Figure 119. Percentage of households with persons with disabilities cooking with wood or coal, by area of residence, in 14 countries, in 2017 or latest year available. ....	224
Figure 120. Percentage of countries with mechanisms to assist persons with disabilities using electricity-run assistive devices during a power outage, among 23 countries, in 2023. ....	225
Figure 121. Percentage of primary schools with access to electricity, by region, in 2015 and 2020. ....	229
Figure 122. Percentage of households that reported difficulties paying utility bills, by disability status, in 2020. ....	231
Figure 123. Percentage of the population aged 15 years and over by labour force status (employed, unemployed and outside the labour force), by disability status, for the world and in 7 regions, in 2021 or latest year available. ....	237
Figure 124. Employment to population ratios for persons aged 15 years and over, by disability status and sex, in 7 regions, in 2021 or latest year available. ....	238
Figure 125. Employment to population ratios for persons aged 15 years and over, by disability status, age group and sex, global estimates, in 2021 or latest year available. ....	239
Figure 126. Percentage of persons aged 15 and over who are employed, by psychosocial disability and disability status, in 22 countries, in 2019 or latest year available. ....	240
Figure 127. Unemployment rates for persons aged 15 and over, by disability status, for the world and in 7 regions, in 2021 or latest year available. ....	241
Figure 128. Percentage of persons with disabilities who reported that their workplace is hindering or not accessible, in 8 countries, in 2015-2019. ....	242
Figure 129. Percentage of persons with disabilities who need but do not have assistive products at work, in 7 countries, in 2015-2019. ....	243
Figure 130. Percentage of employed persons who are self-employed, by disability status, for the world and in 7 regions, in 2021 or latest year available. ....	243
Figure 131. Percentage of employed persons with disabilities aged 15 and over who are self-employed, for Indigenous and non-Indigenous people, in 8 countries, in 2021 or latest year available. ....	244
Figure 132. Percentage of employed persons who work in the informal sector, by disability status, in developed and developing regions, in 2021 or latest year available. ....	245
Figure 133. Percentage of youth aged 15 to 24 not in employment, education or training (NEET), by disability status, for the world and in 7 regions, in 2021 or most recent year with data. ....	245

Figure 135. Employment to population ratios, by level of education and by disability status, for the world and in 7 regions, in 2021 or latest year available. ....	248
Figure 136. Progress in percentage of persons with disabilities employed, in 42 countries or areas, from 2015 to 2019. ....	251
Figure 137. Percentage of persons who were employed at the time of the survey, among all persons not employed in the previous year, by disability status, in 25 countries, average over 2016-2019.....	252
Figure 138. Percentage of persons who were unemployed or outside the labour force at the time of the survey, among all persons employed in the previous year, by disability status, in 25 countries, average over 2016-2019. ....	253
Figure 139. Percentage of employment agencies that are accessible for wheelchair users, worldwide, yearly from 2018 to 2022. ....	254
Figure 140. Percentage of persons who prefer to work from home, by disability status, in the European Union, in March 2021. ....	254
Figure 141. Percentage of jobs held by employees aged 15 to 69 that can be performed remotely, by disability status of the employee, in 24 countries, in 2019.....	255
Figure 142. Percentage loss in the percentage of persons employed (employment to population ratios) from 2019 to 2020, in 7 countries, by disability status. ....	256
Figure 143. Percentage of persons who were employed before the start of the COVID-19 pandemic and unemployed in March 2021, by disability status, level of education and age, in the European Union. ....	257
Figure 144. Percentage of countries with regulatory frameworks on ICT accessibility, by type of framework and by region, in 2020.....	263
Figure 145. Percentage of persons who use the Internet, by disability status, in 46 countries or areas, in 2021 or latest year available. ....	264
Figure 146. Percentage of households, with and without persons with disabilities, that have Internet access, in 29 countries, in 2021 or latest year available.....	265
Figure 147. Trends over time in the percentage of households, with and without persons with disabilities, that have Internet access, in 2 countries. ....	266
Figure 148. Percentage of households, with and without persons with disabilities, that own a computer or tablet, in 30 countries, in 2021 or latest year available. ....	267
Figure 149. Percentage of households with persons with disabilities that have Internet access, by area of residence, in 29 countries, in 2021 or latest year available. ....	268

Figure 150. Percentage of persons with disabilities who use the Internet at least once a week, by age, in 30 countries, in 2021 or latest year available.....	269
Figure 151. Percentage of Internet cafes that are accessible for wheelchair users, worldwide, yearly from 2019 to 2022. ....	270
Figure 152. Percentage of persons who own a mobile phone, by disability status, in 40 countries, in 2021 or latest year available. ....	271
Figure 153. Trends over time in the percentage of households, with and without persons with disabilities, that own a mobile phone, in 3 countries. ....	272
Figure 154. Percentage of persons who use radio and TV, by disability status, in 12 countries, in 2021 or latest year available. ....	273
Figure 155. Percentage of persons aged 16 and over who cannot afford a computer, by disability status, in 33 countries, in 2021 or latest year available.....	274
Figure 156. Percentage of persons aged 16 and over who cannot afford a telephone, by disability status, in 24 countries, in 2020. ....	274
Figure 157. Percentage of persons aged 16 and over who cannot afford a television, by disability status, in 24 countries, in 2020.....	275
Figure 158. Percentage of persons who cannot afford a computer, a telephone and a television, by disability status, in 24-33 countries in Europe, in 2015 and 2020-2021. ....	275
Figure 159. Percentage of persons who used selected ICT skills on a weekly basis over the last 3 months, by disability status, in 22 countries, in 2020 or latest year available. ....	277
Figure 160. Interdependence among community support systems, improvement of individual functioning and accessibility of the community and broader environment. ....	287
Figure 161. Percentage of persons with disabilities who indicate that joining community activities is problematic or very problematic, in 11 countries, in 2021 or latest year available. ....	288
Figure 162. Percentage of persons with disabilities receiving sufficient and insufficient personal assistance for day-to-day activities at home or outside, in 11 countries, in 2021 or latest year available. ....	289
Figure 163. Percentage of persons with disabilities who need personal assistance for day-to-day activities at home or outside, among persons with disabilities who do not have any personal assistance, in 11 countries, in 2021 or latest year available.....	290
Figure 164. Percentage of persons with disabilities receiving unpaid and paid personal assistance, in 8 countries, in 2021 or latest year available.....	290

Figure 165. Percentage of persons with disabilities who completely make decisions about day-to-day life and big decisions (e.g., where to live, who to live with and how to spend money), in 10 countries, in 2021 or latest year available. ....	295
Figure 166. Percentage of directors and managers in services for persons with disabilities who are women, in 23 countries, in 2022. ....	296
Figure 167. Percentage of persons with disabilities who felt discriminated against on the basis of disability, in 19 countries or areas, in 2020 or latest year available. ....	304
Figure 168. Percentage of persons with disabilities who felt discriminated against due to their disability, in 2 countries, from 2015 to 2018-2019. ....	305
Figure 169. Percentage of countries that prohibit discrimination against persons with disabilities in their laws regulating labour, among the 193 United Nations Member States, in 2016 and 2021. ....	305
Figure 170. Percentage of countries that prohibit discrimination against persons with disabilities in the laws regulating education, for the world and by region, in 2018. ....	306
Figure 171. Percentage of persons with disabilities who (i) consider their dwelling hindering and (ii) do not have but need modifications at home, in 7 countries, in 2021 or latest year available. ....	310
Figure 172. Percentage of persons aged 16 and over living in severely deprived housing, by disability status, in 36 countries, in 2020. ....	311
Figure 173. Percentage of persons aged 16 and over living in households where the total housing costs represent more than 40 per cent of disposable income, by disability status, in 34 countries, in 2021. ....	312
Figure 174. Percentage of persons aged 16 and over (a) living in severely deprived housing, by disability status and (b) living in households where the total housing costs represent more than 40 per cent of disposable income, average of more than 30 countries, in 2015 and 2020 or 2021. ....	313
Figure 175. Percentage of persons with disabilities who consider that transportation is hindering or not accessible, in 15 countries, in 2021 or latest year available. ....	315
Figure 176. Percentage of transit stations, transit platforms and bus stations that are accessible for wheelchair users, in developed and developing countries, in 2018 and 2022. ....	318
Figure 177. Percentage of persons with disabilities who report that recreational facilities (e.g., cinema, theatre, pubs) are generally not accessible to them, in 3 countries, in 2018 and latest year available. ....	321
Figure 178. Percentage of persons with disabilities who need but do not encounter modifications to make it easier to participate in the community, in 7 countries, in 2021 or latest year available. ....	321
Figure 179. Percentage of various spaces in cities and human settlements that are accessible for wheelchair users, worldwide, in 2018 and 2022. ....	323

Figure 180. Percentage of recycling premises that are accessible for wheelchair users, worldwide, yearly from 2018 to 2022. ....	324
Figure 181. Percentage of shops of organic and sustainable products that are accessible for wheelchair users, worldwide, yearly from 2018 to 2022. ....	325
Figure 182. Percentage of persons with disabilities who do not have a personal preparedness plan for disasters, in the world and by region, for stateless persons, and by sex, in 2023.....	334
Figure 183. Percentage of persons with disabilities who, without assistance, would have a lot of difficulty evacuating or would not be able to evacuate at all in the event of a sudden disaster, in the world and by region, in 2013 and 2023. ....	335
Figure 184. Percentage of persons with disabilities who need but do not have someone to help them evacuate before a disaster, in the world and by region, in 2013 and 2023. ....	335
Figure 185. Percentage of persons with disabilities who indicate that information on disaster management or risk reduction available in their community is disseminated in accessible formats (e.g., Braille, easy-to-read versions and sign language), in the world and by region, in 2023. ....	336
Figure 186. Percentage of persons with disabilities who are aware of national and local disaster risk reduction (DRR) plans, in the world and by region, for stateless persons and by sex, in 2023. ....	337
Figure 187. Percentage of persons with disabilities who are involved in decision-making processes on community disaster management and risk reduction, in the world and by region, for stateless persons, and by sex, in 2013 and 2023. ....	338
Figure 188. Percentage of Syrian refugees in Jordan who do not work, are illiterate or do not attend school, in 2018.....	339
Figure 189. Percentage of internally displaced persons with disabilities facing barriers to accessing services, by type of barrier, in the Malakal protection of civilians site (South Sudan), in 2020. ....	340
Figure 190. Percentage of countries disseminating laws and policies related to climate change, disasters and evacuation in accessible formats for persons with disabilities, in 27 countries, in 2023. ....	341
Figure 191. Percentage of countries disseminating early warnings and information on the prevention, preparation and recovery from disasters in accessible formats for persons with disabilities, in 27 countries, in 2023.....	342
Figure 192. Percentage of countries that consulted with persons with disabilities and/or their representative organizations in developing laws, policies and measures related to climate change, disasters and evacuation, in 27 countries, in 2023. ....	343

Figure 193. Percentage of countries that have mechanisms in place to ensure that persons with disabilities have access to rehabilitation, assistive technology and psychosocial support during and after a disaster or humanitarian emergency, by status of consultation with persons with disabilities or their representative organizations, in 27 countries, in 2023. ....	343
Figure 194. Percentage of cities that have implemented measures for advancing disability inclusion in local disaster risk reduction, in 21 cities across 10 countries, in 2023.....	345
Figure 195. Percentage of persons with disabilities who have ever been beaten or scolded because of their disability, in 3 countries, in 2018 or latest year available. ....	351
Figure 196. Percentage of women aged 15 to 49 who have suffered sexual violence, at least once in their lifetime, by disability status, in 12 countries, in 2021 or latest year available. ....	352
Figure 197. Percentage of persons aged 15 to 49 who have suffered sexual violence, at least once in their lifetime, by disability status and sex, in Rwanda and Uganda, in 2020 or latest year available. ....	353
Figure 198. Percentage of children with disabilities aged 0 to 18 who suffered violence, by type of violence, in 2020 or latest year available. ....	354
Figure 199. Percentage of children with disabilities aged 0 to 18 who suffered violence, by type of perpetrator, and comparison with children without disabilities, in 2020 or latest year available. ....	354
Figure 200. Percentage of children with disabilities aged 0 to 18 who suffered sexual violence, by type of disability, in 2020 or latest year available. ....	355
Figure 201. Percentage of children with disabilities aged 0 to 18 who suffered in-person or online peer bullying, by type of disability, in 2020 or latest year available. ....	355
Figure 202. Percentage of children with disabilities aged 0 to 18 who suffered maltreatment by adults, by type of disability, in 2020 or latest year available. ....	356
Figure 203. Percentage of children aged 2 to 14 years who experienced severe physical punishment by caregivers in the past month, by disability status, in 41 countries or areas, in 2021 or latest year available (indicator 16.2.1). ....	357
Figure 204. Percentage of persons who report that crime, violence and vandalism are common in their accommodation or area of residence, by disability status, in 34 countries, in 2020. ....	358
Figure 205. Trend in the percentage of persons with disabilities who report that crime, violence and vandalism are common in their accommodation or area of residence, in 33 countries, from 2015 to 2020. ....	359
Figure 206. Percentage of emergency shelters that are accessible for persons with disabilities, in 5 countries or areas in Asia and the Pacific, in 2021 or latest year available.....	360

Figure 207. Percentage of internally displaced persons with disabilities fleeing an armed conflict who encountered violence, bribery and coercion when accessing services, in the Malakal protection of civilians site (South Sudan), in 2020.....	362
Figure 208. Percentage of persons who needed but were not able to receive legal advice, by disability status, in 3 countries, in 2018 or latest year available. ....	370
Figure 209. Percentage of persons who have experienced a dispute in the past two years who accessed a formal or informal dispute resolution mechanism, by disability status, in Gambia, in 2021 (indicator 16.3.3). ....	371
Figure 210. Percentage of persons with disabilities who reported that magistrate offices/traditional courts and police stations are not accessible, in 5 countries, in 2015-2018. ....	372
Figure 211. Percentage of courts and police stations that are accessible for wheelchair users, worldwide, from 2018-2022. ....	372
Figure 212. Percentage of countries or areas with constitutions, all national laws and all court judgements in accessible formats for persons with disabilities, in 10-13 countries or areas in Asia and the Pacific, in 2022 or latest year available. ....	373
Figure 213. Percentage of countries with specific arrangements for access to justice for persons with disabilities, in 27 countries in the European Union, in 2021. ....	373
Figure 214. Percentage of countries with a national portal that is accessible for persons with disabilities according to W3C guidelines, in the world and by region, among 193 countries, in 2020. ....	379
Figure 215. Percentage of ministries, diplomacy-related premises, non-governmental organizations (NGOs), government premises, town halls and tax offices that are accessible for wheelchair users, worldwide, in 2018 and 2022. ....	379
Figure 216. Percentage of countries with online government services for persons with disabilities, in the world and by region, among 193 countries, in 2014, 2016, 2018, 2020 and 2022.....	380
Figure 217. Percentage of countries in which persons with disabilities can apply fully online for services versus those which require appearance in person to benefit from the service, among 193 countries, in 2022. ....	381
Figure 218. Persons with disabilities who report being discriminated against in public services, in 3 countries, in 2018 or latest year available. ....	382
Figure 219. Public spending on social programmes for persons with disabilities as a percentage of gross domestic product (GDP), in 56 countries, in 2020 or latest year available. ....	384

Figure 220. Trend in public spending on social programmes for persons with disabilities as a percentage of gross domestic product (GDP) over time, in 37 countries, from 2014-2015 to 2017-2019. ....	385
Figure 221. Ratio of the percentage of persons with disabilities in the national-level public service personnel (including police, education, health, front-desk administrative and all other public service personnel) to the percentage of persons with disabilities in the national population (indicator 16.7.1), in 6 countries, in 2020. ....	386
Figure 222. Percentage of persons with disabilities who found voting problematic or not accessible, the last election, in 8 countries, in 2021 or latest year available. ....	388
Figure 223. Percentage of persons who found voting problematic in the last election, by psychosocial disability and disability statuses, in 6 countries, in 2021 or latest year available. ....	389
Figure 224. Percentage of countries with legal requirements for the involvement of persons with disabilities and their representative organizations (OPDs) in various processes relating to elections and voting, in 15 countries or areas in Asia and the Pacific, in 2022. ....	390
Figure 225. Percentage of employed persons aged 15 and over who work as legislators, senior officials or managers, by disability status, in 25 countries or areas, in 2021 or latest year available. ....	391
Figure 226. Percentage of children with disabilities who have been registered at birth, in 9 countries, in 2020 or latest year available. ....	396
Figure 227. Percentage of countries that include provisions for persons with disabilities and for accessibility in their laws on access to information, in 127 countries, in 2020. ....	400
Figure 228. Percentage of countries that recognize sign languages as community languages and as official languages, in 90 countries, in 2023. ....	401
Figure 229. Percentage of duration of news programmes of national public TV channels that contain captioning and sign language, in 9 countries or areas in Asia and the Pacific, in 2022 or latest year available. ....	402
Figure 230. Percentage of persons who can afford a newspaper, by disability status, in 4 countries, in 2015 or latest year available. ....	403
Figure 231. Percentage of persons with disabilities who can afford a newspaper, by sex, in 4 countries, in 2015 or latest year available. ....	403
Figure 232. Percentage of persons with disabilities who can afford a newspaper, by area of residence, in 3 countries, in 2015 or latest year available. ....	404
Figure 233. Percentage of disability-inclusive bilateral aid, for which disability is a main or secondary objective, in 2021. ....	408

Figure 234. Percentage of bilateral aid that is disability inclusive, for 23 country donors, in 2021. ....	408
Figure 235. Disability-inclusive aid, by sector, in 2021. ....	409
Figure 236. Disability inclusive aid, by recipient region, in 2021. ....	410
Figure 237. Number of country donors reporting on the disability marker in their bilateral aid, by year, in 2018-2021. ....	410
Figure 238. Percentage of countries with measures to promote access to assistive technology, by type of measure, in 70 countries, in 2021. ....	415
Figure 239. Percentage of preferential trade agreements that include clauses related to persons with disabilities, by decade, from 1940 to 2020. ....	423
Figure 240. Total value of exports of assistive products, in billions of US dollars, from developing countries and developed countries, from 2014 to 2021. ....	424
Figure 241. Total value of imports of assistive products, in billions of US dollars, to developing countries and developed countries, from 2014 to 2021. ....	424
Figure 242. Percentage of the exported values of assistive products from developing and developed countries to developing and developed countries, in 2021. ....	425
Figure 243. Per capita value of imports of assistive products, by region, from 2014 to 2021. ....	426
Figure 244. Number of countries with selected data collections and number of those that included the Washington Group short set of questions on functioning (WGSS). ....	436
Figure 245. Number of countries that collected data on persons with disabilities in their censuses, and those that included the Washington Group short set of questions on functioning (WGSS), in 2005-2014 and in 2015-2022. ....	436
Figure 246. Percentage of countries that used the Washington Group short set of questions on functioning, among countries that included disability in their last census, 2005-2022. ....	438
Figure 247. Number of countries by the year their census was scheduled, before and during/after the COVID-19 pandemic. ....	441

## List of tables

Table 1. Coverage gaps between persons with and without disabilities for various health interventions.	102
Table 2. Initiatives to support the education of students with disabilities during the COVID-19 pandemic. .....	158
Table 3. Examples of initiatives taken by countries to promote inclusive employment, 2016-2022.....	249
Table 4. Percentage of countries or areas in Asia and the Pacific with legal requirements on the accessibility of international airports, by type of requirement, in 12 countries or areas, in 2022.....	316
Table 5. Percentage of countries or areas in Asia and the Pacific with legal requirements on the accessibility of public transport, by type of requirement, in 11 countries or areas, in 2022.....	317
Table 6. Examples of good practices to ensure access to justice for persons with disabilities. ....	374
Table 7. Percentage of persons with need for assistive products and those with their needs met, by human development index category, in 2021. ....	414
Table 8. Percentage of countries that do not impose tariffs on the imports of various assistive products (i.e., with MFN tariffs set at zero for these products), median tariff and tariff range for countries with MFN tariffs not set at zero, for least developed countries (LDC) and other countries, in 2021.....	429
Table 9. Tools developed to produce internationally comparable data on persons with disabilities, including data disaggregated by disability.....	437
Table 10. Examples of disability data portals with global scope and that are publicly available online. ...	440

## List of boxes

Box 1. Target 10.c: by 2030, reduce to less than 3 per cent the transaction costs of migrant remittances and eliminate remittance corridors with costs higher than 5 per cent.....	60
Box 2. Key concepts related to autonomous decision-making in sexual and reproductive health and reproductive rights.....	121
Box 3. Ensuring accessible sexual and reproductive health services and goods for women and girls with disabilities in Tajikistan, during the COVID-19 pandemic .....	131
Box 4. Addressing the sexual and reproductive health needs of women with disabilities in Kenya, during the COVID-19 pandemic.....	132
Box 5. Supporting energy costs for persons with disabilities.....	227
Box 6. Making transportation more inclusive for persons with disabilities around the world.....	319
Box 7. Making public spaces accessible for persons with disabilities .....	322
Box 8. Ensuring sustainable consumption and production patterns, conserving and sustainably using the oceans, seas and marine resources, protecting, restoring and promoting sustainable use of terrestrial ecosystems, sustainably managing forests, combating desertification, and halting and reversing land degradation and halting biodiversity loss (Goals 12, 14 and 15).....	324
Box 9. Supported decision-making versus guardianships and substitute decision-making .....	369
Box 10. Reducing the exposure of persons with disabilities to corruption and bribery in all their forms (target 16.5) .....	383
Box 11. Government engaging with persons with disabilities in Malta .....	387
Box 12. Aid for Disability inclusion – definitions.....	407
Box 13. Improving access to good quality and affordable assistive products in Nepal .....	416
Box 14. The impact of the COVID-19 pandemic on the use of and access to assistive technology in Sweden .....	418
Box 15. Types of tariffs .....	427
