- A government-issued identification, such as a passport or driver's license.

COVID-19 Related Measures:

The COVID-19 case, hospitalization and transmission rates have significantly improved in New York City and the tri-state area. New York State and local authorities have recently lifted or revised their pandemic mitigation measures.

The re-opening of the United Nations Headquarters has therefore been closely guided by the United States Centers for Disease Control and New York City and State health guidelines. As such, please note that:

- Vaccination for civil society representatives will remain mandatory, as conveyed in the most recent communication of DESA's NGOB. The certification of civil society representatives' vaccination status will continue to follow the procedure outlined in our last communication.
- The use of masks throughout the premises is voluntary. We strongly recommend the use of masks in common spaces at United Nations Headquarters.
- By swiping their UN-issued ID, all civil society representatives entering the UNHQ confirm they have not had symptoms consistent with COVID-19 in the last 5 days or a positive COVID test result in the last 5 days.
- Persons experiencing COVID-19 symptoms or symptoms of an upper respiratory tract infection such as seasonal flu are required to stay at home.

- Civil Society Representatives are reminded to carry proof of COVID-19 vaccination while on UN premises in New York and must be prepared to show them if requested to do so by UN personnel.
