

**IROQUOIS CAUCUS | ANISHINABEK NATION**

**Invite you to participate in this special side event**

# **Canadian First Nations and Radioactive Waste**

**Monday April 23, 2018 – 1:15 pm to 2:30 pm  
Conference Room 4 – CR4 (UNHQ Building)**

- Radioactivity causes cancer and damages unborn children
- Radioactive wastes remain dangerous for thousands of years
- Radioactive poisons contaminate air, soil, food and water
- Radioactive wastes are trucked through indigenous territories
- Radioactive wastes are dumped on or near indigenous lands
- Indigenous people have not given free prior informed consent
- Indigenous communities have not been adequately consulted
