Q1 Name of the organization:

Lanka Fundamental Rights Organization

Q2 The purpose of the organization:

To ensure the fundamental rights of each individual from Womb to Tomb.

Q3 Information as to the programmes and activities of the organization in areas relevant to the human rights of older persons:

1) The parents care for their children from birth, but when the children are adults, they do not care about their parents (as they may be not dressing well due to age, may be mental issues & memory problems, sickness & unable to work). Therefore we are working on an insurance scheme, where the children have to contribute from their first income for a particular period so that their parents would be covered for health & living. Once planned well, we will inform the government authorities to compulsorily implement.

2) Take care of the beggars on the road, elders with health problems and without any care, etc.

3) To ensure that they are provided with safe and proper transport and access to buildings.

4) If they were in a good profession or agriculture, get their advice on a payment to them so that the younger generation will get the benefit from their experiences.

5) They should be allowed to pass away happily and peacefully.

The above are some of the activities
