Q1 Name of the organization:

Movimento Giotto, The Giotto Movement (WONCA affiliated)

Q2 The purpose of the organization:

The Giotto Movement is a free association that aims to promote the scientific, cultural and professional renewal of General Medicine and Primary Care. It promotes the active collaboration between doctors, health professionals, communities and individuals having as a vision a comprehensive and proactive primary care system (Comprehensive - Primary Health Care) where updated and competent general practitioners are placed on the holistic model proposed by WONCA. He refers to the Vasco da Gama Movement, a network of European youth movements belonging to WONCA Europe and is a member of the Wonca Italy Coordination (from our website definition).

Our Association is growing and has developed different Special Interest Groups (Elderly Care, Palliative Care in Primary Care, Environmental Health, Overmedicalization, Conflict of Interest). We would promote and divulge initiatives regarding elderly care and the vulnerable population group human right. We strongly believe that the Primary Care setting is pivotal for education and for a community-oriented initiative.

We would participate in the advocacy process for elderly and frailty people to help professionals and society to recognize and protect the vulnerable human right.

We must involve more primary care professionals in the advocacy action.

Our association recognizes advocacy as a priority for the next generation of Primary Care Professionals.

Q3 Information as to the programmes and activities of the organization in areas relevant to the human rights of older persons:

Our Italian Association, the Giotto Movement, has developed different working groups with special interest (Palliative Care, Intermediate Care, Elderly Care, Overmedicalization, Environmental health).

We strongly believe that better elderly care needs a new generation of Primary Care Physician, our network consists mainly of young general practitioners.

We have the great possibility to support exchange worldwide to availing national and international network, thanks to Vasco Da Gama Movement (WONCA-Affiliated) collaboration.

In this years we have constantly disseminated elderly care and palliative care tools in our website, through social media. We organized several workshops, in national and international (WONCA) conferences, especially dedicate to elderly care and palliative care in frailty elderly.

Our special interest working group have increased their followers, in particular, the palliative care group have promoted the signature of the new IAHPC palliative care definition a National level. We are well connected with other Association (Slow Medicine, Italian Society of Primary Care, others)
